Body Therapy

Body Wrap **70 min | \$239.00**
Indulge in a nourishing, skin softening body polish and hydrating wrap, jam-packed with antioxidants, including Ginseng, Ginko Biloba and Bamboo. This scrub will exfoliate away dead skin cells to prepare your skin for full body hydration.

You'll be immersed in a hydrating green detox clay masque and wrapped up.

Finish up with a full body moisturisation treatment, leaving your skin smoother, softer, and with a hint of tangerine. Emerge from your cocoon with a hydrated, full body glow.

Smooth & Polish Body Exfoliation **40 min | \$139.00**
Luxuriate in a full body exfoliation to smooth the skin and leave your body hydrated and glowing. This is the perfect pairing to any massage or pre-tan to maximise results.

Make sure you schedule all other spa treatments before your spray tan, including facials, massage, waxing etc. If you choose to shave, you should do so beforehand, though not immediately before! DMS suggests shaving earlier in the day and rinsing with ice-cold water, as that will close your pores, making sure the tan doesn't get caught in them and appear as little brown dots. We also advise that you use new razor blades, to avoid having your tan fading unevenly.

Tattoo Removal POA

Laser Tattoo Removal is the process of using multi-wavelength laser technology to fade or completely remove a tattoo. When the tattoo pigment is sitting in the dermis, we use a Q Switch Laser. The laser shatters the ink into small particles through the heat and energy. It is then excreted through your body's waste system, and it will take multiple treatments to fade or remove the tattoo. You MUST have a consultation before any treatment is performed.

IPL Skin Rejuvenation 50 min | \$250.00

IPL is a non-invasive skin treatment that emits powerful bursts of light energy to treat sun-damaged skin, wrinkles, acne and vascular conditions without damaging the surface of the skin.
